BIOGRAPHY:

Born in Japan and not afraid of hustle, I began my own business at the age of nine with the help of my father. Landscaping was hard in the summer months of Oklahoma, but I was determined and coachable - a skill I had to learn. Not only did I learn how to edge and mow a lawn, but I discovered the soft skills of speaking to adults, eye contact, work ethic, and a host of life lessons that have served me well both in and out of the classroom. I hope to bring this entrepreneurial spirit to the next chapter to build my understanding of computer programming, coding, and game development. I look forward to an experience that will allow mistakes to create an end product and continue to shape my understanding of the world.

EXPERIENCE:

WEB DEVELOPER - 2024 TO PRESENT

EDUSKILLS

Collaborate with the development team to design and implement new features and functionalities of EduSkills English Education Software. Assist in the development and maintenance of front-end components using HTML, CSS, JavaScript, and modern frameworks/libraries. Contribute to back-end development. Work with databases to design, implement, and optimize data storage solutions. Participate in code reviews, testing, and debugging to ensure high-quality code and performance.

BARISTA - 2021 TO 2024

STARBUCKS

Prepare and serve speciality coffee and drinks while managing inventory and maintaining equipment. A high volume crew member, customer service is a priority. Partner of the Quarter in 2022.

MATH TUTOR - 2022 TO 2023

SANTA FE SOUTH SCHOOLS

During Santa Fe South Schools' Saturday school, I provide math instruction to high school juniors and seniors in algebra I and II, geometry, and trigonometry.

OWNER AND OPERATOR - 2015 TO 2021

STONE'S SOD SHAVING SERVICE

Owner and operator of Stone's Sod Shaving Service for six years. Versed in task delegation, deadline management, and project requirements. Dedicated to creating lasting client relationships.
